

Innova completes acquisition of Drayton Mead Solar Farm

6th March 2018

Innova Energy today announced the acquisition of the 5MWp Drayton Mead Solar Farm in Aylesbury, Buckinghamshire. The purchase marks the second asset acquired from Haymaker Energy, following the acquisition of Majors Hill Solar Farm in December 2017. Innova Capital provided due diligence and transaction support throughout the deal.

The site is constructed of approximately 19,000 Renesola photovoltaic panels covering 19.2 acres, with Power Electronics central inverters, commissioned in March 2016 the facility has been accredited by Ofgem to receive 1.3x Renewable Obligation Certificates (ROCs).

Mr Robin Dummett, Co-founder and Director of Innova Capital commented:

"The purchase of Drayton Mead marks a successful chapter in realising our investment goals, further building on a strong set of acquisitions in 2017. Drayton Mead Solar Farm marks our second acquisition from Haymaker Energy whom we hope to work with again in the future."
